President of Editorial Board of ATINER's Publications

Dr. Gregory T. Papanikos, President, ATINER

Editor-in-Chief of ATINER's Publications

Dr. George Poulos, Vice President of Research, ATINER &
Professor Emeritus, University of South Africa

Editor of this Journal (Acting)

Dr. Theodore Trafalis, Head, Industrial Engineering Research Unit, Athens Institute for Education and Research (ATINER) and Professor of Industrial and Systems Engineering & Director, Optimization & Intelligent Systems Laboratory, The University of Oklahoma, USA.

Editorial and Reviewers' Board of this Journal

- Dr. Nicolas Abatzoglou, Professor and Head, Department of Chemical & Biotechnological Engineering, Université de Sherbrooke, Canada.
- Dr. Stavros Alifragkis, Research Associate, School of Architecture, National Technical University of Athens, Greece.
- Dr. Thomas Attard, Associate Research Professor, Arizona State University, USA.
- Dr. Prabir Kumar Bandyopadhyay, Professor, GOA Institute of Management, India.
- Dr. Arthur Pantelides, Director of Engineering, Sumitomo Machinery Corporation of America, USA.
- Dr. Ioannis Zisis, Assistant Professor, Department of Civil and Environmental Engineering, Florida International University, USA.
- Dr. Tanuja Bandivadekar, Associate Professor, Structural Engineering Department, Sardar Patel College of Engineering, India.
- Dr. Nicholas Patricios, Director, Engineering & Architecture Research Division, ATINER and Professor & Dean Emeritus, School of Architecture, University of Miami, USA.
- Dr. Panagiotis Petratos, Vice President of ICT, Athens Institute for Education and Research (ATINER) & Associate Professor of Computer Information Systems, California State University, Stanislaus, USA.
- Dr. Christos Sakellariou, Vice President of Finance, Athens Institute for Education and Research (ATINER) & Associate Professor of Economics, Nanyang Technological University, Singapore.
- Huseyin Ince, PhD, School of Business Administration, Gebze Institute of Technology, Turkey

President's Message

The Athens Institute for Education and Research (ATINER) is pleased to announce the publication of a number of peer reviewed, open access journals of original research work. Most of the articles will be selected from the numerous papers that have been presented at the various annual international academic conferences organized by the different research divisions and units of the Athens Institute for Education and Research. The plethora of papers presented every year will enable the editorial board of each journal to select the best, and in so doing produce a top quality academic journal. In addition to papers presented, ATINER will encourage the independent submission of papers to be evaluated for publication.

The current issue is the first of the *Athens Journal of Technology & Engineering* published by the Engineering & Architecture Research Division of the Athens Institute for Education and Research (ATINER).

The Head of the Engineering & Architecture Research Division is member of the Editorial Advisory Board. The Academic Members of the research unit are members of the Editorial Board and will assist the editor and the Editorial Advisory Board with the peer reviewing of all submitted papers. Currently, the academic members of the five research units consist of over 100 international experts from about 50 countries.

Gregory T. Papanikos

President

Athens Institute for Education and Research

Editor's Note

The Athens Journal of Technology and Engineering is an interdisciplinary peer reviewed journal published by the Athens Institute for Education and Research (ATINER). ATINER has been involved in the organization and hosting of a multitude of Conferences and Symposiums in the past, and even though it has produced numerous publications in the form of, inter alia, books, abstracts, and an on-line paper series, there has been a growing need to recognize outstanding papers, and thus the idea was conceived of having such papers published in journals.

The Athens Journal of Technology and Engineering encourages and supports scholarly works that focus on theories, research, and applications regarding topics related to technology and engineering. This journal will hopefully go a long way in reflecting the inherent usefulness of these disciplines and interdisciplinary fields, and the vital role they play on human life.

The editor of the Athens Journal of Technology and Engineering welcomes quantitative, qualitative, theoretical-based, and conceptual papers. The editors are committed to blind and fair review of all submitted articles based on the following criteria: importance and timeliness of the issue, clarity of purpose, compatibility of the purpose and the design of the study, soundness of the methodology, and readability and flow of the materials. The Athens Journal of Technology and Engineering encourages its reviewers to provide professional, constructive and timely feedback to the author(s) for continuous improvement in their current and future scholarly works.

With the introduction of the Athens Journal of Technology and Engineering, we look forward to making a further contribution to the study of Technology and Engineering and to furthering our knowledge in the various fields of study that are generally recognized under the umbrella of technology and engineering. As editor, I am joined in this endeavor by a truly excellent Editorial Board, as well as highly competent publishing support at ATINER. It is envisaged that the Athens Journal of Technology and Engineering will be published quarterly.

Theodore B. Trafalis

Editor of the Athens Journal of Technology and Engineering
